History:
The Affordable Care Act requires that health care claims contain the NPI of the licensed practitioner who prescribed, ordered or referred the service. Missouri is several years behind in implementation of this requirement but has been implementing in stages. DMH providers are expected to comply by January 1, 2019.

The federal regulation at 42 CFR § 455.440 states, “The State Medicaid agency must require all claims for payment for items and services that were ordered or referred to contain the National Provider Identifier (NPI) of the physician or other professional who ordered or referred such items or services.” The federal regulation at 42 CFR § 455.410(b) states, “The State Medicaid agency must require all ordering or referring physicians or other professionals providing services under the State plan or under a waiver of the plan to be enrolled as participating providers.”

The Center for Medicaid and Medicare Services (CMS) and MO Healthnet Division (MHD) will require the NPI (National Provider Identifier) for Ordering, Prescribing, Referring and Attending (OPRA) providers to receive payment on specific services submitted on Medicaid claims coming from the Department of Mental Health (DMH) in the Division of Developmental Disabilities (DD) and Division of Behavioral Health (DBH).

Several DMH staff and ITSD/DMH staff have been working to ensure the new data fields for Ordering, Prescribing and Referring (OPR) providers will be available in CIMOR and the Data Warehouse where necessary after January 1, 2019. DMH will not require the entry of the OPR information, but will allow entry and collection of the information in order to send the information to MHD. While DMH will not be implementing rules and verification of the data, MHD may require the information for claims processing.
**CIMOR Screen Changes:**

The following pages will display the CIMOR screens that have been changed due to this project and what changes are being made:

**Add Non-Authorized Encounter Screen and Add Authorized Services**

An Other Provider/Practitioner Information entry grid has been added below the Service Location field.

- **Type** - will be a drop down with the following values: Ordering, Prescribing, Referring, Rendering. These are the only values acceptable and it is a required field.
- **NPI** - is a numeric field that must be 10 digits. This field is required.
- **Last Name** - allows up to 60 characters. This field is required.
- **First Name** - allows up to 35 characters. This field is optional.
- **Mid Init** - allows up to 25 characters. This field is optional.
- **Taxonomy** - must be 10 characters if provided. This field is optional.

Rendering Provider previously displayed as a separate field under certain conditions (Procedure codes T1002, T1003, T1016). Rendering Provider will now be a choice in the Type drop down.
